

FREE BIBLE EDUCATION SEMINARS

Have you ever wondered what the Bible is all about? Come along to simple yet comprehensive Bible based seminars. If you've had questions about the Bible or would like to learn more about what it has to say, then this program is for you.

We will be learning about the main themes and the message of hope that runs through its pages, the incredible prophecies that are hugely relevant for today and some of the key teachings that are presented. A detailed subject break-down is included below.

The seminars will be based solely on the Bible. We welcome open conversation and free thinking around the ideas the Bible contains, believing truth can be found in it if approached with due diligence and humility.

There will be three consecutive series of seminars held throughout the year. These will be held in three different Christchurch locations.

TAKE YOUR PICK
